Director's Message

It is a matter of real satisfaction for me to share this Annual Activities Report of Viswa Yuva Kendra, covering the work we carried out through the year 2025-26. Every program described in the pages that follow was shaped around the priorities and thrust areas our organisation has held onto for four decades now.

Our efforts to protect children from marriage, trafficking and abuse continued across Angul, Dhenkanal and Boudh districts this year, and the results give us real hope -more families are speaking up, more institutions are responding, and more children are being reached before harm occurs.

We also pressed ahead with our work in sustainable agriculture and rural livelihoods. Through the Shree Anna Abhiyan and our crop diversification efforts, small and marginal farmers, along with daily-wage earners, received support to strengthen their skills and diversify what they grow. Watching community participation grow year after year continues to be one of the most encouraging parts of this work.

On the animal welfare front, our Animal Help Line, Mobile Veterinary Units and the Goushala allowed us to reach distressed and abandoned animals with care and treatment they would otherwise not receive. This year also marked the launch of our Community Mental Health and Development Program, a new area of work we are proud to have started. Full details of all these initiatives are laid out in the sections ahead.

None of this would be possible without the trust and partnership of our supporting agencies, government departments, district and local administrations, local leaders and community members. I am equally grateful to our advisers, members and staff, whose steady commitment carries this organisation forward year after year.

Manoj K. Mohapatra
Member Secretary-cum-Director

Celebrating 40 Years of Community Service

1986 – 2026: Four decades of standing with the people of Odisha.

On 15th August 1986, a small group of committed individuals came together in Angul with a simple but ambitious idea — that communities themselves hold the power to build a more just, healthy and sustainable future, if given the right support. That idea became Viswa Yuva Kendra. Forty years later, in 2026, we look back at a journey that began with a handful of volunteers and grew into an organisation trusted by hundreds of villages across five districts of Odisha.

What started as youth-centred community work gradually widened into a broad canvas - child protection, sustainable agriculture, forest conservation, animal welfare, community health and disaster preparedness. Through each phase, one thing never changed: our belief that lasting change is built with communities, not delivered to them.

Four Decades in Brief

- 1986 - Viswa Yuva Kendra founded in Angul on 15th August, beginning with youth mobilisation and community development work.
- 1987-1996 - Formal recognition secured under the Societies Registration Act and the Foreign Contribution (Regulation) Act, opening the door to wider partnerships.
- 2000s - Expansion into child protection, education support and natural resource management across Angul and neighbouring districts.
- 2010s - Deepening of forest and natural resource management work as a Partner NGO under the Odisha Forestry Sector Development Project, alongside growing livelihood and women's self-help group programs.
- 2020s - Launch of Child Help Line, Animal Help Line, Mobile Veterinary Units, the Goshala, the Shree Anna Abhiyan and, most recently, the Community Mental Health and Development Program — carrying the organisation's founding spirit into new areas of need.
- 2026 - Forty years of service completed, with active programs now reaching 1200+ villages across Angul, Boudh, Dhenkanal, Sundargarh and Sambalpur districts.

What Forty Years Have Taught Us

Communities change faster than any single program can anticipate, so we have had to keep listening and adapting. The families we worked with in our early years are now grandparents; many of the volunteers who once ran our youth programs are today's senior staff and board members. Trust, built slowly over decades, remains our most valuable asset — one that no funding cycle can create on its own.

As we step into our fifth decade, we carry forward the same founding conviction: that dignity, resilience and opportunity should reach every household we work with, regardless of how remote the village or how deep-rooted the challenge. This anniversary is not just a celebration of what we have built - it is a renewal of that commitment for the years ahead.

Viswa Yuva Kendra - An Overview

Viswa Yuva Kendra is a professional voluntary organisation based in Odisha, founded on 15th August 1986. For forty years now, it has worked in the fields of child protection, sustainable agriculture and livelihood promotion, community health and WASH, education, women's empowerment, youth development, forest and natural resource management, and community capacity building across the central and western parts of the state.

Vision

A sustainable, resilient and equitable society.

Mission

To contribute toward a sustainable, resilient and gender-equal transformation of communities and institutions by strengthening learning, collective action and access to resources.

Thrust Areas

Our program choices are guided by the needs voiced by the communities we work with, while also being responsive to the priorities of our supporting agencies:

- Child Protection
- Sustainable Agriculture and Livelihood Promotion
- Forest and Natural Resource Management
- Animal Welfare
- Community Health and Water, Sanitation and Hygiene (WASH)

Area of Operation

Viswa Yuva Kendra currently works across 917 villages spread over five districts of Odisha - Angul, Boudh, Sundargarh, Dhenkanal and Sambalpur.

Sl. No.	District	Blocks Covered	Villages
1	Angul	Kishorenagar, Athmallik, Chhendipada, Angul, Banarpal, Pallahara	354
2	Boudh	Boudh, Harabhanga	249
3	Dhenkanal	Kankadahad, Hindol, Odapada	275
4	Sundargarh	Nuagaon, Bishra	14
5	Sambalpur	Rairakhol	25
Total	**14 blocks**		**917**

Legal Status

1. Registered under the Societies Registration Act XXI of 1860 (Regd. No. DKL/1512/111/87-88, dated 25 September 1987).
2. Registered under the Foreign Contribution (Regulation) Act, 1976 (No. 104890057, dated 1 January 1996), renewed till 31 December 2026.
3. Registered under Section 12A of the Income Tax Act, 1961 (No. Judl/29/12-A/91-92/29363, dated 30 December 1994), renewed on 24 September 2021 up to Assessment Year 2026-27.
4. GST Registration Number: 21AAATV4472B1ZW
5. Permanent Account Number (PAN): AAATV4472B
6. Tax Deduction Account Number (TAN): BBNV01204A
7. CSR-1 Registration Number: CSR00020427
8. NITI Aayog (Darpan) ID: OR/2016/0101658

Governance

VYK is guided by a General Body of 17 members drawn from diverse backgrounds, who meet annually to take major policy decisions. A seven-member Executive Committee, made up of respected local figures, meets quarterly to steer the organisation's management and its projects and programs, while the Member Secretary is responsible for carrying those decisions forward.

Several sub-committees, formed by members along with outside professionals, review membership, monitor ongoing programs, and oversee infrastructure development and procurement. All of this work is anchored in the organisation's Constitution, along with its Finance Policy, HR Manual, Procurement Policy, Gender Policy, Child Protection Policy and POSH Policy.

Programs at a Glance

The year 2025-26 saw Viswa Yuva Kendra carry forward its work across seven core program areas. The sections that follow describe each of these in detail, but here is a quick snapshot of where our energy went this year.

- Child Protection: Safeguarding children from Marriage, Trafficking and Sexual Abuse.
- Climate Resilient Agriculture and Sustainable Livelihood Promotion: Shree Anna Abhiyan and the Crop Diversification Program.
- Forest and Natural Resource Management: Community forest protection and Livelihood Promotion of Forest Dependants as a Partner NGO under OFSDP Phase-II and Ama Jangala Yojana (AJY)
- Community Mental Health and Development Program: A new initiative supporting people living with mental illness.
- Animal Welfare: Through Animal Help Line, Mobile Veterinary Units and the Goshala.
- Disaster Response: Village Disaster Management Plan.

Child Protection

Viswa Yuva Kendra runs its **Access to Justice** for Children program with the aim of strengthening the legal framework that protects minors. Our work is organised around three themes — child sexual abuse, child trafficking and child marriage — and involves both systems-strengthening and direct engagement with survivors and their families across 450 villages in Angul, Dhenkanal and Boudh districts.

Awareness and Capacity Building

We work closely with a wide range of stakeholders — community members, women's groups, youth and adolescents, school and college students, grassroots government functionaries, Panchayati Raj representatives, traditional leaders and community-based organisations. Community meetings, rallies, awareness campaigns, observance days and training for service providers form the backbone of this effort. Key activities this year included:

- 12th June 2025 – observed World Day Against Child Labour
- July 2026 - a month-long campaign against human trafficking
- 27th November 2026 - the campaign against child marriage (Bal Bivah Mukt Bharat)
- Chariot rallies conducted across all target villages
- Sensitisation sessions and pledges undertaken with temple priests
- A sustained media campaign running through the year
- Community pledges taken against child marriage

Strengthening Child Protection Mechanisms

Village Level and Panchayat Level Child Welfare and Protection Committees are community groups set up by the government to foster child-friendly environments and guard against abuse and exploitation. We conducted awareness sessions with these committees to build their capacity and help them take up child-related issues more actively, reaching all 450 target villages through this work.

Case Interventions

Child Marriage

According to the National Family Health Survey 2019-21, roughly a quarter of marriages in our operational area involve minors 25.3% in Boudh, 25% in Angul and 23.7% in Dhenkanal district with the problem more pronounced

in rural and tribal pockets. Poverty, limited access to quality education, entrenched social traditions and a declining sex ratio remain the principal drivers. Working alongside government systems such as ICDS, the Panchayati Raj institutions and the local police, we prevented or stopped 1,356 child marriages across the three districts this year.

Districts	Angul	Dhenkanal	Boudh	Total
Child Marriages Prevented / Stopped	714	685	382	1,781

Child Trafficking

Child trafficking involves the recruitment, transport, transfer or harbouring of a child for the purpose of exploitation. Globally, one in every three identified trafficking victims is a child, and in low-income countries children make up as much as half of those detected. Most are trafficked into labour — domestic work, agriculture, factories or mining — or into commercial sexual exploitation, forced marriage, begging or false promises of employment.

VYK's efforts focused mainly on rescuing children trafficked for labour, including inter-state cases, as well as for marriage and sexual exploitation. This year, working with local police, the labour department and district administration, we rescued 192 children under the age of 18, produced them before the Child Welfare Committee, and restored them to their families or to children's homes.

Districts	Angul	Dhenkanal	Boudh	Total
Children Rescued	89	87	08	184

Child Sexual Abuse

Child sexual abuse covers any act of engaging a child in sexual activity, whether through coercion, pressure or other means, and includes commercial sexual exploitation such as forced prostitution, trafficking for sex, and early marriage. It occurs across schools, homes and online spaces, and cuts across every socio-economic, racial, ethnic and geographic boundary — rural or urban alike. Child marriage itself is recognised as one of its forms.

This year, we identified 47 children who had experienced sexual abuse, ensured their rescue, and provided counselling to both the children and their families, along with legal support through lawyers in Angul and Dhenkanal. We supported the filing of 41 Victim Compensation Applications, of which 3 children received financial assistance under the relevant government scheme.

Sensitization Program in Educational Institutions

VYK also works to strengthen primary and secondary education by building community capacity, improving school governance and creating a positive school environment, alongside encouraging extra-curricular participation among students. This year's activities included:

- Sensitisation sessions on child protection and child rights delivered in over 100 upper primary and secondary schools across Angul, Dhenkanal and Boudh districts.
- Community sensitisation meetings held with 25 School Management Committee members on school governance and community participation.
- Children's Day celebrated on 14th November 2025 with students from 10 secondary and upper primary schools, featuring cultural programs and student activities.

Vulnerability Mapping and Government Scheme Convergence

Household surveys were conducted across all intervention villages to identify vulnerable families and assess their access to government welfare schemes. Key achievements include;

- Over 17,000+ vulnerable beneficiaries identified for government scheme linkage.
- Special focus has been given on Kankadahad Block of Dhenkanal District as an Aspirational Block.
- 20 convergence camps organized with the support of Block Administration and Panchayati Raj Institutions.
- Beneficiaries are assisted in accessing social protection schemes and government entitlements.

- District and Block Administration, Social Welfare Department, District Child Protection Units (DCPU), District Education Offices, Child Welfare Committees (CWCs) and Police Departments, Panchayatiraj Institutions etc. have actively supported the initiative.

Districts	Angul	Dhenkanal	Boudh	Total
Beneficiaries Linked with different Government Schemes	**6,718**	**6,054**	**4,515**	**17,287**

Survivors Network

Survivor Network meetings were organized across all three districts involving survivors of Child marriage, Child trafficking, Child sexual abuse. Parents of the survivors , government officials, and service providers participated in these meetings to review case progress, facilitate rehabilitation, discuss compensation and ensure continued support for survivors.

Climate Resilient Agriculture & Sustainable Livelihood Promotion

Shree Anna Abhiyan

The Special Programme for Promotion of Millets in Tribal Areas of Odisha is a distinctive initiative of the state agriculture department, aimed at boosting nutri-cereal production, local consumption, MSP-based procurement and distribution through the PDS. Its objectives include:

- Raising household millet consumption by 25% over baseline levels
- Reviving millet-based food cultures in both urban and rural settings
- Conserving and promoting traditional millet landraces through seed systems
- Encouraging post-harvest and primary processing enterprises built around millets
- Improving productivity across millet-based cropping systems
- Supporting millet value-addition enterprises in rural and urban Odisha
- Including millets in the PDS, ICDS, Mid-Day Meal scheme, welfare hostels and other programs
- Facilitating millet markets and exports of millet-based products from Odisha

VYK has implemented this program in Boudh block of Boudh district since June 2022. During the year under report, the following was achieved:

Block	Gram Panchayats	Villages Covered	Area Covered	Millet Procured and Sold
Boudh	17	126	Kharif: 200 hac Rabi: 70 hac	600 quintals

Beyond field-level production, we also carried out the following community activities:

- Millet awareness sessions conducted in 126 villages
- Advocacy for millets carried out through the Mandia Ratha (millet chariot) campaign in Boudh block
- Field days organised for millet collection and storage practices

Agronomic Method	Block	Gram Panchayats	Villages	Households	Area Covered
Line Transplanting	Boudh	17	126	260	130 ha
SMI	Boudh	17	126	270	120 ha
Line Sowing	Boudh	17	18	85	20 ha

Crop Diversification Program

The Government of Odisha's Crop Diversification Program, launched under the State Agriculture Policy 2020 (SAMRUDHI), extends to several districts including areas under the Mega Lift Irrigation projects. Implemented by the Department of Agriculture & Farmers' Empowerment, the program aims to shift upland and medium-land paddy cultivation toward non-paddy crops within and around these irrigation command areas. Its objectives are to:

- Diversify from paddy to non-paddy crops with an emphasis on pulses, oilseeds and horticultural crops in upland and medium land during Kharif.
- Improve soil health by promoting crops that build biomass, reducing dependence on chemical inputs.
- Integrate cropping systems with livestock and fisheries.
- Promote cluster-based post-harvest handling, processing, value addition and marketing through FPOs, women's SHGs and agri-entrepreneurs, to raise farmer incomes.
- Build awareness, capacity and community mobilisation around sustainable cropping patterns and dietary diversification.
- Bring non-paddy produce into government schemes such as ICDS, Mid-Day Meals, PDS and ST/SC welfare hostels.

VYK currently runs two such programs, one in Cluster-2 of Athmallik block in Angul district, and another in Cluster-13 of Nuagaon/Bishra block in Sundargarh district.

Athmallik Block

Launched in August 2023 across 60 villages under 6 gram panchayats, this program covers 1,500 hectares and reaches 3,200 farmers, with a focus on maize, green gram, black gram, millets, sesame, groundnut and other oilseeds. We trained 600 farmers on package-of-practices for crop diversification and organic pest management, alongside awareness drives and road shows across the target villages.

Nuagaon/Bishra Block

Launched in November 2023 across 14 villages under 4 gram panchayats, this program covers 1,633 hectares and reaches 3,233 farmers. The initial phase focused on identifying farmers, selecting suitable land, forming community-based organisations, and building awareness around crop diversification in all target villages.

Forest & Natural Resource Management

Viswa Yuva Kendra serves as a Partner NGO to the Athmallik Forest Divisional Management Unit for implementation of activities under Phase-II of the Odisha Forestry Sector Development Project (OFSDP). A team of three staff members is deployed across the Athmallik, Madhapur and Bamur Field Management Units, each led by a Team Leader supported by two Development Officers. Our engagement as a Partner NGO is guided by three objectives:

1. Strengthening the institutional capacity and sustainability of Van Sarakshyan Samities (VSS), Eco-Development Committees (EDCs) and Self-Help Groups, so they can manage project-created assets equitably and sustainably.
2. Deepening the participation of VSS and SHGs in planning and implementing project activities.
3. Ensuring SHGs stay actively engaged in livelihood activities throughout the year, to raise their incomes and reduce livelihood insecurity.

Scope of Work

- Community mobilisation
- Reorganisation and formation of VSSs and Women's Self-Help Groups
- Perspective, micro, annual and convergence planning
- Capacity building of VSSs and SHGs
- Support for afforestation, farm forestry, biodiversity conservation, livelihood enhancement, community development, and stakeholder engagement
- Business and enterprise planning for SHGs, along with implementation support
- Planning for long-term institutional sustainability
- Monitoring, performance review and evaluation
- Documentation of activities, success stories and case studies
- Knowledge management

Project Area

VYK currently works with 20 VSSs in Athmallik, 25 in Madhapur and 30 in Bamur - all under the Athmallik Divisional Management Unit - covering 77 villages across the Athmallik and Kishorenagar blocks of Angul district.

Community Mobilisation and Institutional Activities

We organise awareness meetings in every VSS on Joint Forest Management and the role of community members, along with Executive Committee and General Body meetings held in line with prescribed VSS norms. These meetings address forest protection and promotion, village development priorities and financial matters. Specific activities this year included:

- VSS Executive Committee meetings covering plantation planning, forest boundary demarcation, nurseries, watch-and-ward arrangements, fencing, convergence, beneficiary selection, farm forestry inspections, SHG selection and grading for income-generating activities, conflict resolution, fire and elephant protection, soil moisture conservation works, and financial management of the VSS.
- General Body meetings held at least twice a year to elect office-bearers, reconstitute the Executive Committee, conduct social audits, prepare the annual plan and micro-plan, undertake annual audits, resolve conflicts and plan forest development work.
- Regular Self-Help Group meetings for selecting income-generating activities, grading, bank linkage and loans, and addressing financial matters and scheme linkages.

Community Capacity Building

Animators, VSS working-group members and women's SHG members received training and exposure visits covering community motivation, meeting facilitation, documentation, forest development work, roles and responsibilities, farm forestry for sustainable livelihoods, PRA and micro-planning, selection and grading of income-generating activities, SHG management, record-keeping and VSS fund management.

Village Development Planning

Micro-plans were prepared for 75 VSSs across the Athmallik and Madhapur units during 2018, 2019 and 2021, based on Participatory Rural Appraisal (PRA) exercises in every village, and submitted to the district administration, forest department and other relevant line departments. These plans aim to guide village-level development in convergence with multiple departments, alongside forest promotion and protection. The micro-plans for all 25 Madhapur VSSs were subsequently revisited and updated to reflect changing community needs. PRA exercises included transect walks, forest transect walks, social and resource mapping, seasonal calendars, Venn diagrams, wellbeing ranking, historical timelines and focus group discussions.

Convergence of Services

Convergence remains central to this project, connecting communities with the services of multiple line departments i.e. agriculture, horticulture, the Odisha Livelihoods Mission, Mission Shakti, Panchayati Raj, fisheries, Khadi and Village Industries, health, veterinary services and others, alongside private partners. Services accessed through this convergence included the ATMA Revolving Fund, fruit tree distribution, vegetable kits, onion seed distribution, farm and fishery ponds, pond renovation, road construction, land development, dug wells, cattle immunisation, poultry distribution and sheds, rural road construction with culverts, beekeeping and vermi-compost units — along with hybrid vegetable cultivation, mango and cashew plantation, paddy demonstration and groundnut cultivation support.

Livelihood Promotion

We regularly convene and coordinate women's Self-Help Groups, connecting them with the Livelihood Mission, Mission Shakti and financial institutions, while also creating market linkages for their produce. The details across our three Field Management Units are summarised below:

FMU	No. of VSS	No. of SHGs	SHGs Supported	Key Activities
Athmallik	20	113	78	Pisciculture, vegetable/paddy/pulses cultivation, goat & poultry rearing, mushroom cultivation, rice/dal processing, badi/papad making, tailoring, NTFP collection
Madhapur	25	137	09	Mushroom cultivation, poultry farming, phenyl making, vermi-compost, pisciculture, pickle making
Bamur	30	215	25	Garment production, pisciculture, pickle making, vegetable/paddy cultivation, poultry farming, vermi-compost

Natural Resource Management

Central to this project is the protection and restoration of forests, along with the soil, water and wildlife they support, through strengthened Van Sarakshyan Samities. We provided hand-holding support for nursery development, forest protection, species plantation, farm forestry on individual holdings, and soil and moisture conservation structures such as staggered trenches, loose boulder contour dams, half-moon trenches, stone bunds, brushwood check dams and wire-mesh check dams. Progress across our three FMUs is summarised below:

FMU	No. of VSS	Forest Area Assigned (ha)	Forest Area Treated (ha)
Athmallik	20	1,460.46	948
Madhapur	25	2,630.49	1,214
Bamur	30	2,518.88	1,533
Total	**75**	**6,609.83**	**3,695**

Project Management

An annual action plan guides activities across all three Field Management Units — Athmallik, Madhapur and Bamur - carried out under the guidance of each FMU Chief and jointly monitored by the FMU and VYK's Chief Functionary. Progress is reviewed fortnightly at the FMU level and monthly by the Divisional Management Unit. VYK also reviews staff performance monthly through virtual check-ins and periodic field visits by Board Members.

Ama Jangala Yojana

Ama Jangala Yojana aims to restore forests, strengthen participatory forest management, and improve the livelihoods of forest-dependent communities. The program began in August 2025 and ran for an initial eight months across 28 villages under five Forest Ranges of Angul Forest Division. VYK's role has been to provide socio-technical support to VSSs — covering ground surveys, demarcation and mapping, micro-plan preparation, capacity building and livelihood planning — while coordinating between the VSS, FMU and DMU toward democratic and sustainable governance of forest resources. Activities undertaken:

- Reconstituting committees and making them functional across all 28 VSSs
- Sensitising local communities and building their capacity for VSS management
- Organising regular member meetings to strengthen participation in forest protection and conservation
- Identifying SHGs and helping them prepare micro-enterprise plans
- Supporting SHGs and SHG clusters with processing, packaging and marketing of products through skill training and exhibitions
- Connecting communities with government programs covering health check-ups, sanitation, agriculture and horticulture promotion, and skill development
- Assisting VSSs with soil moisture conservation, RDF and plantation activities

Awareness on Wildlife Conservation

A wildlife conservation awareness program was conducted across 19 VSSs under Kaniha Forest Range between 28th February and 5th March 2026, comprising awareness meetings in each VSS, a cultural street play (Pala), a chariot procession through target and neighbouring villages, and leaflet distribution among participants.

Awareness Against Forest Fires

A 5 days forest fire awareness program was conducted across 14 VSSs under Kaniha Forest Range of Angul District in March 2025 through street play, community meeting and exhibitions.

Community Mental Health and Development Program

An estimated 197.3 million people in India live with a mental health condition about 14.3% of the population. with roughly one in seven people affected and more than 1% living with a severe mental illness (Global Burden of Disease Study, 1990-2017). Yet 70% to 92% of those affected go without proper treatment, largely due to low awareness, stigma and a shortage of trained professionals.

Against this backdrop, VYK launched this program in the tribal-dominated areas of Athmallik block in Angul district, aiming to support people living with mental illness. The program's objectives are to:

- Promote psycho-social intervention and medical treatment for people with mental illness through capacity-building of the implementing organisation
- Strengthen community structures and build a supportive environment for people with mental illness and their families
- Collaborate with the District Mental Health Program and other mental health service structures, and strengthen linkages with the State Health and Social Security Department

Activities Undertaken

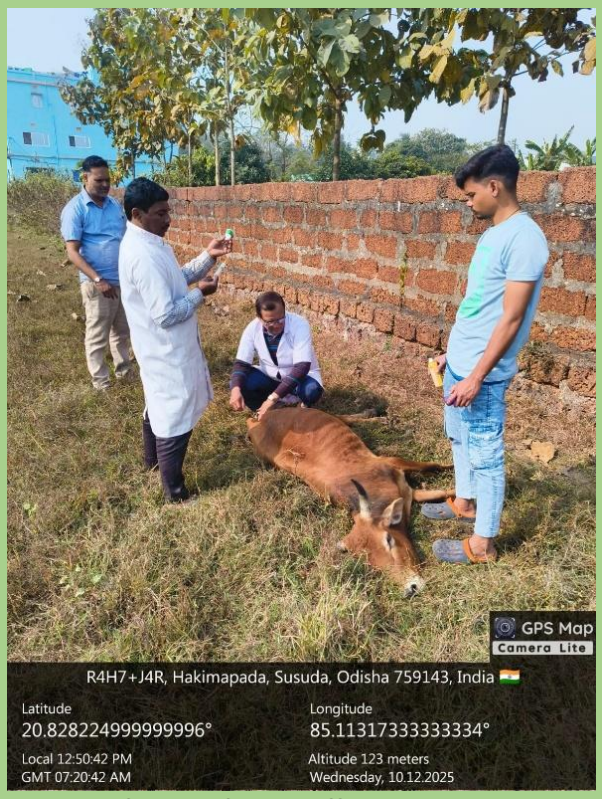

- A baseline survey covering mental health awareness, stigma and discrimination, access to treatment and community attitudes, along with IEC activities and wall writing
- Engagement with frontline stakeholders — Anganwadi workers, ASHAs, CRPs, ward members, MBKs, sarpanches and ANMs
- Sensitisation meetings held with community members, SHGs, Anganwadi workers and ASHAs across all target villages
- Coordination with PHC medical officers and PRI representatives to improve access to services
- Identification of 264 people living with mental illness
- Training delivered to ASHA and ICDS workers
- Continued treatment support for 70 people, including access to medicines and health services
- Regular home visits to all identified individuals, with guidance on medication adherence

Animal Welfare

Animal Help Line

Since June 2022, our Animal Help Line and Ambulance Service has supported the treatment and follow-up care of injured and sick animals across urban Angul, operating under Angul Municipality. The service also carries out community awareness on animal care, FMD vaccination, coordinates proper carcass disposal with the Municipality, and remains available 16 hours a day for animals in distress. A team of two veterinary doctors, two AHL assistants, two attendants and two drivers runs the service, which treated 2,000 stray and destitute animals over the year.

Mobile Veterinary Unit

Our Mobile Veterinary Unit extends services to stray and destitute animals across all eight community development blocks of the district, supported by a team of eight field staff assisting veterinary professionals. Over the year, the unit treated more than 15,000 large and small animals.

Restoration of Destitute Animals

Our Goshala (GOKRUPA GOSHALA) works to restore destitute and stray animals to a life of care and stability. Since starting this rescue effort, we have restored 53 animals at the Goushala, supported by contributions from community members, our own staff, and the local veterinary hospital, who together ensure the animals receive food, medicine and healthcare. The Goushala has been formally operational since December 2023, with its shed constructed with support from the Chief District Veterinary Officer, under the Department of Fisheries and Animal Resources Development, Government of Odisha.

Disaster Response

VYK was entrusted with preparing Village Disaster Management Plans (VDMPs) for 94 villages in Athmallik subdivision of Angul district, with the broad aim of helping communities build micro-plans to respond effectively to disasters. The specific objectives guiding this work are to:

- Involve the local community throughout the planning process
- Create a plan enabling organised, immediate deployment of resources during an emergency
- Enable a fast, coordinated community response when disaster strikes
- Build genuine community ownership of the plan
- Link the VDMP to the village's long-term development plan

As a result, we prepared and submitted 91 Village Disaster Management Plan documents to the district administration.

We have also prepared Gram Panchayat Disaster Management Plan (GPDMP) in 23 Gram Panchayats of Athmallik and Kishorenagar block. Preparation of VDMP and GPDMP include;

Sl. No.	Name of the Activity	Name of the Block	
		Kishorenagar	Athmallik
1	Village Disaster Management Plan	53	38
2	Gram Panchayat Disaster Management Plan	18	05
3	Awareness Generation Program at village and Gram Panchayat level	71	43
